

Ms. Jackie Brazzell was hired in January, 2002 as the first Grant Administrator for the circuit. She resigned in July 2003 due to relocating to another state with her husband. Ms. Stacy McClure was hired July 22, 2003 and presently serves in this position. All financial records concerning the expenses paid by APPP probation fees are maintained in her office under general supervision of Pickens County acting as fiscal agent for all three counties. She continues to work with the current county financial officer, Ms. Faye Harvey concerning the fiscal operation of this program as well as other court related grants and programs. She is also responsible for researching and helping to write grants for the Appalachian Judicial Circuit Accountability Courts and Pickens County Visitation Center.

As a part of the agreement with the three counties to create this position, court related grants and programs are continuing to be transferred to Pickens County for their financial administration. Gilmer County previously served as the fiscal agent for the state grant which provided funding for the salary of the full-time Juvenile Judge. This grant has now been transferred to Pickens County and Ms. McClure is responsible for billing the counties for the remainder of the Juvenile Judge's salary and county supplements. She also bills for payroll expenses of other court personnel which are paid by all three counties.
